Common Health Conditions

High-quality Learning Resources

Every hour someone in the UK is told they have Parkinson's disease; there are approximately 152,000 strokes in the UK every year – that is more than one every five minutes; and one in six of the UK population have some form of hearing loss. These health conditions, along with others such as arthritis and dementia, affect a substantial proportion of the population. A good understanding of common health problems is essential in any care environment.
