Principles of End of Life Care

High-quality Learning Resources

By 2040, the number of people aged over 64 in Britain is expected to grow from 9.5 million to 15 million. The population is aging, meaning more people will live with serious chronic illness and need end of life care. The problems faced and support needed by people nearing the end of life is wide-ranging and a good understanding of pain management, support and quality of life is essential for all carers.

Benefits to your organisation

Reduce the risk of malpractice and negligence

Give employees a high standard of learning to support their roles in the workplace

Relevant to a wide variety of people and care settings

Provide assurances that your employees are well trained

Create better person-centred care by enabling staff to recognise different approaches to managing pain and discomfort

Allow employees to gain relevant skills, knowledge and understanding, leading to improved experiences for those using your services

Create a more motivated and engaged workforce by supporting CPD development and possible career progression

Improve your team's understanding of current legislation and the key principles surrounding end of life care

Reinforce the importance of communication in end of life care

No cost

Evidence competency of staff in this subject area to external stakeholders
