# The Principles of Good Dementia Care

High-quality Learning Resources

Dementia affects around 820,000 people in the UK. This figure is likely to rise to one million by 2025 and two million by 2051. It is one of the main causes of disability in later life and with research being desperately underfunded, it costs the UK over £26 billion a year. Understanding dementia and the person-centred care that is required is fundamental to high-quality care.

## Benefits to your organisation

Improve your team's understanding of the various forms of dementia and the importance of being respectful at all times

Reduce the risk of malpractice and negligence

Allow employees to gain relevant skills, knowledge and understanding, leading to improved experiences for those using your services

Create better person-centred care by enabling staff to offer appropriate and effective medication

Give employees a high standard of learning to support their roles in the workplace

Relevant to a wide variety of people and care settings

Create a more motivated and engaged workforce by supporting CPD development and possible career progression

Reinforce the importance of physical activity on mental well-being

Provide assurances that your employees are well trained

Evidence competency of staff in this subject area to external stakeholders

## No cost
